

C.L.E.A.R.S.®

- **Removes: Water, Sand, Silt, Small rocks, mud and more**

- **Continuous Operation: Maximizes Removal Time**

- **Hyper Operation: Boosts Removal Volume**

- **Easy to Clean accessibility**

- **Never loses prime**

- **No need to empty / dumps automatically**

- **No Pumps, No Filters**

- **Proven Technology**

Continuous Liquid Extraction And Recovery System (CLEARS) is a unique, one and only, Vacuum driven machine to transport almost any kind of liquid or debris from a disaster location. The machine is capable of transferring media at astronomical rates. Examples of use conditions are:

- **Flooded basements**

- **Crawl spaces**

- **Concrete fish ponds**

- **Operates most ride-on carpet extractors**

- **Use as truck mount boosts**

Operational Specifications:

- **One Cord Operation single phase**

- **Two Cord Operation single phase or two phase**

- **Continuous mode (20Amp)**

- **Hyper (Boost) mode (20Amp)**

- **Eco-mode (10Amp)**

- **120 in-water head lift through 1½" vertical hose**

- **75 Ft suction/discharge of water through 1½" laid down hose**

- **AC Elapsed time meter to track usage**

Electrical Specifications:

120 VAC/60 Hz, 10/20Amp
Power present Green indicator
Control Panel Power Green indicator
UL listed US & CA E516352

Mechanical Specifications:

Height: 50" Width: 22" Depth: 24"
Net Wt: 120 lbs Gross Wt: 204 lbs
Wheel size: 10" solid rubber

Control Panel: Water splash proof, IP 63 Compliant
